**ROSWELL
PARK**
COMPREHENSIVE CANCER CENTER

Welcome

OUR RESPONSE TO COVID

Roswell Park is a safe place to receive your cancer care.

From the beginning of the pandemic, we took strict measures to protect the health and safety of everyone at Roswell Park, especially our patients. We appreciate your cooperation with these important safety guidelines while at Roswell Park.

We continue to work closely with the CDC, the Erie County Department of Health and the New York State Department of Health as the situation evolves with best practices for infection control and guidance from public health officials.

For our updated guidance regarding COVID, please go to RoswellPark.org/coronavirus.

Dear Roswell Park Patients and Families,

Welcome to Roswell Park Comprehensive Cancer Center. You have selected a National Cancer Institute-designated comprehensive cancer center for your care. We are among a select group of such centers in the country and the *only* one in Upstate New York.

You are in exceptional hands. You have my guarantee that your experience at Roswell Park will be delivered by a team of experts that focuses on you. The relentless pursuit of our vision is evident in the quality of the care we provide and the results we achieve.

We understand that a diagnosis of cancer, or even the suspicion, can be emotionally distressing, for you and everyone who loves you. Our promise is that our world-class team will be at your side every step of the way. We promise that you and your family will:

- Have full access to information, services, resources, clinical trials and a multidisciplinary team of specialists and support staff.
- Be encouraged as an active, informed participant in all aspects of your cancer care.
- Receive appropriate care that addresses your individual physical, mental, spiritual, practical and other needs.
- Receive care that is respectful, safe and compassionate.

Not many healthcare facilities can make statements like these, but Roswell Park is a special place, staffed by special people. It's a place where the extraordinary is ordinary, and achieving excellence is our standard. We adhere to evidence-based medicine; we continually review, measure and share our results; and we go above and beyond to meet the individual needs of our patients and their families. This is The Roswell Way.

During your stay, we expect you to have many questions. We hope this handbook provides direction and assistance. Please take a few minutes to look it over and if you still have questions, do not hesitate to ask them. We are here for you, hoping to make your stay as comfortable as possible.

With Warmest Regards,

Candace S. Johnson, Ph.D.
President & CEO

Preparing FOR YOUR VISIT

We want you to become an active member of your healthcare team. The best way to begin is to prepare for your appointments and be ready to ask questions. Our physicians and nurses expect you to have questions. By talking to your healthcare team, you will learn a lot about your diagnosis and treatments, which can greatly improve the quality, safety and effectiveness of your care.

We will need some things from you to help make the most of your time and appointments at Roswell Park. Here is a checklist of items and information to do and bring with you on your first visit:

- **Sign up for the MyRoswell Patient Portal**

Go to my.RoswellPark.org to register and log your information. Be sure to list any medications you take and physicians you see. If you need assistance, please call **1-800-767-9355**.

- **Your Health Insurance ID Card and Referral**

Please bring your health insurance ID card. If your insurer requires a referral, make sure you have obtained a copy of that referral and bring it with you. Be prepared to pay your health insurance copay on the day of your visit. If you don't have health insurance or if you have any questions about your insurance, call our Financial Counselor at **716-845-4782**.

- **Your Prescription Insurance Card(s)**

Please bring all of your prescription insurance and discount cards. These can include EPIC, Medicare-D, PACE, and any other discount cards you may have.

- **Lab, Pathology, and Radiology Reports**

Please bring copies (or have forwarded to us) any lab reports, radiology reports, films, slides, or CDs you may have received from other physicians or facilities.

- **List of Your Allergies**

It is important for your healthcare team to know if you have any allergies, especially allergies to medications, latex, iodine, or seafood. Make a list of your allergies and bring it with you to your appointments.

- **List of Your Medications**

We will want to know about **ALL** the medications you are currently taking, including vitamins and minerals, herbal or natural substances, and other over-the-counter medications, such as pain relievers or allergy pills. Bring all your medications or make a list to bring to every visit. Update this list if any of your medications change.

What can friends and family do to help? Buy gift certificates to our cafeteria or for takeout meals; run errands; clean the house; walk the dog; pick up the kids; water the garden; offer to drive to appointments.

- **List of Your Physicians**

We will need a list of all of your physicians, including your primary care physician, internist, oncologist and any other specialists. Please indicate for each doctor whether we should contact him or her regarding your treatment at Roswell Park.

- **Healthcare Proxy Form or Advance Directive**

You may want to appoint a trusted relative or friend to make healthcare decisions for you if you lose the ability to make those decisions yourself. To select that person, you will need to complete a Healthcare Proxy form or you may specify your preferences for your care in an Advance Directive or Living Will. If you have any of these documents, please bring a copy. If you would like assistance with these, call our Social Work Department at **716-845-8022**.

- **List of Questions for Your Doctor**

You will want to learn everything you can about your cancer so you can make informed decisions about your care and treatment. We suggest you write down the questions you'd like to ask your doctor, such as:

- What kind of cancer do I have and where is it located?
- What treatments are available for me?
- What are the risks and side effects?
- Will I need to be admitted into the hospital?
- How will my treatment affect my job and daily activities?

- **Language and Hearing Impaired Assistance**

We offer specially trained medical interpreters who can provide language and American Sign Language translation for our patients and families. To schedule an interpreter for your appointment, talk to the new patient scheduling staff or call our Social Work Department at **716-845-8022**.

- **A Loved One**

We suggest you bring a family member or friend with you for your appointments. This person should take notes or simply provide support during your appointments.

YOUR First Visit

When you arrive at our main entrance, we will have staff, volunteers and wheelchairs to assist you, if needed. Look for our volunteers wearing blue blazers who can help direct you.

1. REGISTER

Check in at the Registration desk located in the hospital lobby. You will be directed to one of our Patient Access representatives or to our Databank and BioRepository team members. The Patient Access staff will:

- Collect your health and prescription insurance information
- Provide Healthcare Proxy and Advance Directive forms, if you need them
- Direct you to your appointment

2. HAVE YOUR BLOOD TESTED, IF REQUIRED

Your Patient Access representative will direct you to the Phlebotomy Department located on the ground floor near Registration.

3. PROCEED TO YOUR DESIGNATED CENTER

The letter you received from us explained which Treatment Center to report to on your first visit. Look for the location of your center on the directory screen by the elevators on the ground floor.

4. MEET WITH YOUR HEALTHCARE TEAM

First, your nurse will conduct an assessment examination and ask about your medications, allergies and symptoms. The nurse may direct you back to the waiting room and call you as soon as the next exam room is available.

In the exam room, you will meet your nurse practitioner or physician assistant and then your doctor. Your doctor will review your medical history, perform a physical examination and review your test results and medical records and explain your diagnosis to you. He or she will discuss your treatment options, including any available clinical trials that might be right for you, and answer any questions you may have. If you need more testing, the staff will schedule these tests for you.

What to know about clinical trials Participating in a clinical trial can provide you access to treatments and procedures that may be unavailable from other providers and hospitals. For some patients, the treatments and procedures offered through clinical trials can be a better *first* option. Your Roswell Park physician will evaluate every possible treatment, including clinical trials, in determining a recommended plan for you. As always, treatment decisions are entirely your choice. Learn more about clinical trials at [RoswellPark.org/clinical-trials](https://www.RoswellPark.org/clinical-trials)

ADVANCE BLOOD DRAW

You may find it more convenient to have your blood drawn before your appointment at Roswell Park and the test results sent to your oncologist. This way, you will be able to see your doctor without having to wait for your lab results. Your physician will decide whether having your blood drawn in advance is appropriate for you.

You may have your blood drawn in advance at these convenient locations.

Roswell Park Laboratories at:

- Roswell Park's downtown campus, Elm and Carlton Streets, Buffalo, NY 14263
- Roswell Park's Amherst Center, 100 College Parkway, Suite 290, Williamsville, NY 14221

YOUR RIGHTS AND PROTECTIONS AGAINST SURPRISE MEDICAL BILLS

The No Surprises Act of 2022 protects people covered under group and individual health plans from receiving surprise medical bills when they receive most emergency services, non-emergency services from out-of-network providers at in-network facilities, and services from out-of-network air ambulance service providers. It also establishes an independent dispute resolution process for payment disputes between plans and providers, and provides new dispute resolution opportunities for uninsured and self-pay individuals when they receive a medical bill that is substantially greater than the good faith estimate they get from the provider.

For more information ask one of our Patient Access representatives or visit **www.cms.gov/nosurprises**

Cancer can cause financial hardship for some patients. We have many resources to help. Please call our Financial Counselor at **716-845-4782** or speak with a Social Worker by calling **716-845-8022**.
