

International Medical Concierge Program

For international patients seeking care at Roswell Park Comprehensive Cancer Center

Our **International Medical Concierge Program** connects you with the cancer experts, treatments and guidance you need.

Roswell Park is an elite cancer research and care center in Buffalo, NY and easily accessible from New York City and Toronto, Canada.

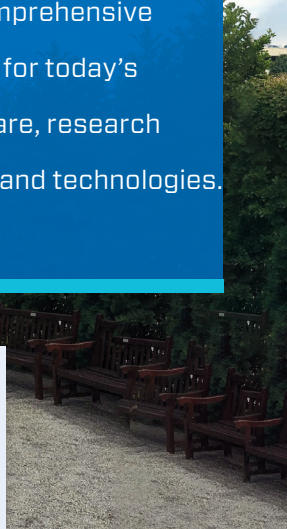

WHAT WE OFFER

- **Dedicated concierge team** to coordinate care and logistics for international patients traveling to Roswell Park.
- **Second opinions** via medical record review and/or pathology review
- **Patient consultations** via telemedicine or virtual visits
- **Medical visa assistance** for entry to the United States
- **Interpreter services**
- **Lodging and transportation** guidance

About Roswell Park

As the first facility in the United States dedicated exclusively to cancer, Roswell Park Comprehensive Cancer Center pioneered the standard for today's multidisciplinary approach to cancer care, research and the development of new therapies and technologies.

Roswell Park's **CANCER CARE** and **TREATMENT**

Today, we set ourselves apart as a leader in robotic surgery, cellular therapies, immunotherapy, genomic medicine and other cutting-edge options.

Patients are treated by comprehensive, multidisciplinary teams — including surgical, medical and radiation oncologists and specialists in hematology, gynecology, urology, pediatrics and more — that work together to ensure each patient's treatments are optimally coordinated and delivered with compassion and respect.

UNIQUE TREATMENT CAPABILITIES

Roswell Park offers specific approaches unavailable elsewhere in the region, including:

- **Cellular therapies** such as chimeric antigen receptor (CAR) T-cell and tumor-infiltrating lymphocyte (TIL) therapy for advanced lymphoma, multiple myeloma, leukemia and melanoma.
- **Robotic surgery** from surgeons with high-volume experience for surgical management of bladder, prostate, kidney, lung, esophageal, gastrointestinal, pancreas, biliary, and other cancers.
- **One-day jaw reconstruction** to remove tumor, reconstruct the jaw from patient's tibia bone and place dental implants in one operation.
- **Gamma Knife radiosurgery** to treat metastases to the brain.
- **Endoscopic surgery** such as endonasal skull base surgery, robotic transanal surgery and robotic navigational bronchoscopy.
- **Clinical trials** for the latest novel agents, targeted drugs and cellular therapies.
- **Stem cell transplant** to patients of all ages for treatment of cancer, sickle cell anemia, immune disorders and other nonmalignant conditions.
- **Intraoperative radiosurgery** to ensure clear margins with tumor excision.
- **Cytoreductive surgery/ Hyperthermic Intraperitoneal Chemoperfusion (CS/HIPEC)** for advanced abdominal disease.
- **Intraperitoneal chemotherapy** for treatment of ovarian, fallopian tube and primary peritoneal cancers.
- **Photodynamic therapy** that combines light sensitizing drugs with nonthermal laser treatment.

International **MEDICAL CONCIERGE** Program

We aim to make this part of the cancer journey easier

Our dedicated team will work with you to find the very best cancer care for your patient and facilitate every step along the way.

HOW WE CAN HELP:

- **Second opinions.** We can confirm or revise your patient's diagnosis or treatment plan with a medical record review and/or pathology review.
- **Consultation.** Our experts will meet with you and/or your patient via telemedicine to offer guidance, options and next steps.
- **Coordinated medical care.** If your patient chooses to travel to Roswell Park for surgery, cellular therapies or other options, our medical concierge team will coordinate all care with appropriate experts and act as point of contact.
- **Travel visas.** Our team will prepare appropriate letters needed to obtain medical visas for entry to United States.
- **Interpreter services.** We will arrange for language interpreters for phone calls, telemedicine and in-person visits.
- **Logistics.** We will assist with lodging arrangements, transportation and other practical concerns.

Roswell Park is an internationally renowned cancer center in Buffalo, New York, a small but cosmopolitan city on the shore of Lake Erie, one of the five Great Lakes shared by the United States and Canada. A natural wonder of the world, the mighty Niagara Falls is just 30 minutes away by car.

A short (less than an hour) flight from New York City or Toronto, Buffalo combines the attractions of a larger city with the ease, friendliness and affordability of a smaller destination. Everything — travel, lodging, dining and respite — is simpler (and less expensive) in Buffalo.

We are a city
RICH IN THE FOOD, MUSIC,
AND CULTURE OF MANY NATIONS.
