

## Adult Neurofibromatosis Clinic at Roswell Park

Neurofibromatosis (NF) is a genetic disorder that causes tumors to develop in the nervous system. It affects men and women from all races. The goal of Roswell Park's Adult Neurofibromatosis Clinic is to consolidate care and develop comprehensive management plans for neurofibromatosis patients. This multidisciplinary clinic will help streamline your care and treatment goals and work collaboratively with your primary care provider.

In this clinic, you will be offered visits with:

- Medical geneticists
- Soft tissue medical oncologists and surgeons
- Neuro-oncologists and neurosurgeons
- Plastic surgery specialists
- Pain management specialists
- Social workers
- Other experts as needed

The Neurofibromatosis Clinic will open once quarterly on Thursday afternoons. It is located in our Neuro-oncology Clinic on the 3rd floor of the main hospital.

If you would like more information or are interested in making an appointment, call **1-800-Roswell (1-800-767-9355)**.
