rend-setting styles, cutting-edge colorations, incomparable quality and relentless dedication to our customers have secured Henry Margu’s position as a leader of the “alternative” hair industry.

Since Henry Margu first came on the scene in Philadelphia in 1951, family ownership has developed the company into one of the most well respected international brands of wigs and hair fashions. From a humble beginning in the storefront millinery shop of the family house, the perseverance and dedication of the Margu family has made us the oldest and most experienced wig manufacturer in the US. Over these many years, innovative ideas have helped us create some of the most strikingly unique and colorful wigs in the industry just as casting our reputation as trendsetter. The design staff at Henry Margu has not only focused on developing exquisite fashions but also on achieving the highest quality standards for our products. While Henry Margu continues to grow, our core values and strong family culture have not changed.

Our enduring partnerships with thousands of retailers is the result of our excellent customer service and knowledgeable sales staff which has enabled us to serve countless women over the years.

With 69 years of history, many milestones have been recognized at Henry Margu with many more still to come. Most importantly, the driving force of our efforts is for one purpose … the satisfaction of our customers!

In today’s world, when a woman’s hair looks good, she feels good. Henry Margu is helping women exude beauty and confidence with a countless variety of fashion forward and elegant styles available in a wide range of our exclusive salon inspired colors.

The superior craftsmanship of Henry Margu wigs utilizes sophisticated techniques including specialized fiber processing and blending methods making our styles more manageable and natural looking. Our design team is constantly working to continually create lighter weight wigs with exceptional comfort for endless hours of wearing pleasure.

The beautiful colorations developed by Henry Margu add a touch of realism to any style. Using the most up-to-date coloring trends, the highlighting is designed to accentuate each individual style creating the most natural appearance for every wig.

Henry Margu is creating freedom of choice by enabling every woman to easily achieve any hairstyle and to change her appearance at a moment’s notice to look her absolute best.

Browse the following pages and see for yourself why the difference is beautiful™ with Henry Margu wigs.

Premiere

The Henry Margu tradition continues with the introduction of Premiere, an innovative collection of human hair wigs.

Premiere is designed for women to radiate beauty while looking and feeling their best! Intricately hand crafted to the smallest detail using 100% Remy hair, the styles offer exceptional comfort while looking amazingly realistic.

Premiere utilizes 100% Remy hair which has the cuticle layer preserved to protect the hair strand from environmental damage. Premiere Remy hair is healthy, smooth and soft. The strands of hair are meticulously knotted into the cap by hand. A monofilament top and lace front simulate realistic hair growth. Silicone applications in the cap allow for a secure and comfortable fit. Salon inspired highlighting techniques are used to create the most realistic colors for every Premiere wig.

Created as a professional line, Premiere is sold in shops and boutiques only and is not available online.

Premiere is the ultimate in luxurious hair!

Halo and Halo Long are available in colors: 1BH, 4H, 6H, 7H, 8H, 12H, 14H, 24H, 18, 26H, 27AH, 31H, 33H, 51, 60

Halo is created with comfort in mind while offering a simple solution to hair loss. Ready-to-wear with no styling needed, Halo is a fast and easy option to a wig when running errands, dropping the kids at school or a trip to the grocery store.

Halo is a realistic wig alternative creating the illusion of a full head of hair. Comfortably fitting the circumference of the head, three silicone patches in the front and ultra-thin adjustments in the back personalize the fit and assist in securing Halo to the head.

Pairing perfectly with a hat, scarf, turban and most baseball caps, Halo is exceptionally lightweight and available in two lengths; a short chin length and a below the shoulder version. Beautifully highlighted colors assure a close to match to any hair color. When a wig is a hassle, just slip on Halo for a beautiful, believable new look.

Cap Construction

Traditional Cap Construction

Traditional cap construction features a fine net material in the top area with open wire in the back. Weftings attached to stretch elastic lace make the open back creating better ventilation to keep the head cooler. A Traditional cap or wig utilizing components of this type of cap construction is often referred to as a “machine-made” cap.

Open Cap/Featherlight Cap

Open Cap is commonly referred to as a “capless” wig to the lack of net material used in the top area or a Traditional cap and as a result making the wig better ventilated throughout. The entire cap is produced with weftings attached to thin stretch elastic lace. Our exclusive ultra thin weftings used in the Featherlight cap make the wig feel better and more comfortable as a result. Often a Mono Top will have a polyurethane strip in the front to create the most realistic appearance. A Mono Top feels smoother against the skull than a Traditional or Open Cap and more comfortable as a result. A Monofilament Top with Lace Front wigs are produced the same as a Mono Top but utilizing a Lace Front as well to create the most realistic appearance in conjunction with the realistic characteristics of a Mono Top. This allows for amazing off the face styling versatility as well as the flexibility to part hair on the left or right or on the center to create multiple styling variations. These wigs offer the most natural and realistic appearance due to the combination of the Mono and Lace Front.

Lace Front

A lace front wig has a hairline made of a fine lace mesh in which each hair is individually hand knotted. The lace varies in width from 1/4 to 1 inch. The lace typically extends across the entire front hairline but an occasion may extend from ear to ear. The benefit of a lace front wig is an extremely realistic hairline that appears as if the hair is growing directly out of the scalp and allows the fiber in this area in the top to be styled off the face in any direction. The neutral color of the lace mesh types on the skin tone of the wearer making the hairline more natural looking and virtually invisible. A Lace Front can be used on wigs of any type cap construction.

Hand-Knotted Cap

A hand-knotted wig is also referred to as a hand-tied wig. Hand-Tied wigs are made with a soft stretch lace base and rows of the fiber is individually hand knotted onto the lace base. This type of cap is lightweight and exceptionally comfortable as the low stretch front with the hand-knotted weft are produced with a Mono Top making them extremely natural looking as well and making the type of wig the most luxurious available.

Mono filament Crown (Mono Crown) cap contains a Mono area in the top area of a machine made cap. This allows for the fiber in this area to have a more natural and realistic appearance and is often used on shorter wig styles in the crown or the center of a style that is flatter and with less volume in the top.

Mono filament Top

Mono filament top is an extremely silver mesh used to make a transparent base that creates a realistic looking scalp area utilizing hand-knotted with natural fibers to simulate the appearance of natural hair growth. The fiber in a Mono filament Top (Mono Top) allows for multidirectional styling and creating the appearance of natural hair growth. A Mono Top feels smoother against the skull than a Traditional or Open Cap and more comfortable as a result. A Mono Top wigs of any type cap construction.

Mono filament Top with Lace Front

Mono Top wigs are produced the same as a Mono Top but utilizing a Lace Front as well to create the most natural front hairline in conjunction with the realistic characteristics of a Mono Top. This allows for amazing off the face styling versatility as well as the flexibility to part hair on the left or right or on the center to create multiple styling variations. These wigs offer the most natural and realistic appearance due to the combination of the Mono and Lace Front.

Mono filament Part

A mono filament top (Mono Part) cap contains a wide mono part area on a machine-made cap and allows the wearer to style a conventional part or a more fashionable zigzag part area on a machine-made cap and allows the wearer to part hair on the left, right or center creating amazing styling versatility and resulting in an extremely realistic looking appearance. A Mono Top feels smoother against the scalp than a Traditional or Open Cap and more comfortable as a result. A Mono Top wigs of any type cap construction.

Hand-Knotted Cap

A hand-knotted cap is also referred to as a hand-tied cap. Hand-Tied caps are made with a soft stretch lace base and rows of the fiber is individually hand knotted onto the lace base. This type of cap is lightweight and exceptionally comfortable as the low stretch front with the hand-knotted weft are produced with a Mono Top making them extremely natural looking as well and making the type of wig the most luxurious available.

Mono filament Crown (Mono Crown) cap contains a Mono area in the top area of a machine made cap. This allows for the fiber in this area to have a more natural and realistic appearance and is often used on shorter wig styles in the crown or the center of a style that is flatter and with less volume in the top.

Mono filament Top

Mono filament top is an extremely silver mesh used to make a transparent base that creates a realistic looking scalp area utilizing hand-knotted with natural fibers to simulate the appearance of natural hair growth. The fiber in a Mono filament Top (Mono Top) allows for multidirectional styling and creating the appearance of natural hair growth. A Mono Top feels smoother against the skull than a Traditional or Open Cap and more comfortable as a result. A Mono Top wigs of any type cap construction.

Mono filament Top with Lace Front

Mono Top wigs are produced the same as a Mono Top but utilizing a Lace Front as well to create the most natural front hairline in conjunction with the realistic characteristics of a Mono Top. This allows for amazing off the face styling versatility as well as the flexibility to part hair on the left or right or on the center to create multiple styling variations. These wigs offer the most natural and realistic appearance due to the combination of the Mono and Lace Front.
