## What Sets Us Apart

- We are a center for the diagnosis and treatment of breast cancer and benign breast conditions.
- As a Roswell Park Care Network practice, we're linked to our region's only Comprehensive Cancer Center designated by the National Cancer Institute. Our patients benefit from access to the newest therapies, approaches and Roswell Park clinical trials and other innovations.
- We offer a comprehensive range of support services to help you cope with the day-to-day concerns related to your illness, before, during and after breast cancer treatment. We also work in close collaboration with other health professionals to provide:
  - Comprehensive genetic counseling and testing
  - Physical therapy for lymphedema
  - Counseling services
  - Screening mammograms
  - Ultrasound
  - Mastectomy prostheses and bras.
