

# Pharmacology & Therapeutics Faculty Position

## Roswell Park Comprehensive Cancer Center

Roswell Park Comprehensive Cancer Center (RPCCC), an NCI-Designated Comprehensive Cancer Center in Buffalo, NY, invites applications for faculty positions at the Assistant Professor level in the Department of Pharmacology and Therapeutics (P&T).

The Department is seeking to expand the scientific scope of its expertise, broadly, in cancer biology, cancer metastasis, drug development, therapy resistance, pharmacogenomics, and translational studies. Candidates should have a Ph.D or comparable degree in biomedical research and/or clinical science. Ideal candidates for these positions will have an established track record of externally-funded research or the strong potential to develop one. A commitment to graduate-level advising, mentoring, and teaching is required. This position also requires a commitment to scientific and administrative activities in the department and institute, disease site translational research groups (TRG), and the Cancer Center Support Grant programmatic activities.

Laboratory space will be located in a modern 300,000 sq ft Life Sciences Complex, which includes the NY State Center for Excellence in Bioinformatics. In this multidisciplinary research environment, the candidate will have access to numerous additional core facilities, the opportunity to interact with scientists and clinicians from many programs and departments, and the ability to conduct patient-oriented translational research in collaboration with clinicians.

RPCCC, the nation's first cancer center founded in 1898, has made fundamental contributions to reducing the cancer burden and has successfully maintained a leadership role in setting national standards for cancer care, research, and education. The mission of the P&T Department is to identify novel therapeutic targets, develop and clinically translate novel anti-cancer therapeutics and therapeutic combinations, and elucidate mechanisms underlying therapy response and resistance. The department currently consists of a multi-disciplined faculty studying cellular, genetic and epigenetic mechanisms of tumor development, progression and therapy resistance (<https://www.roswellpark.org/research/departments/pharmacology-therapeutics>). Our faculty are part of, and interact extensively with, the 4 CCSG science programs (<https://www.roswellpark.org/research/ccsg-research-programs>), particularly, the Developmental Therapeutics (DT) program.

Qualifications: Required Education and Experience:

Doctoral degree in an appropriate scientific or clinical-based discipline and the equivalent of two (2) years of full-time experience in an applicable scientific or clinic research environment.

NOTE: Required degrees must have been granted by an accredited college or university or one recognized by Roswell Park Comprehensive Cancer Center as following acceptable educational practices.

*Roswell Park believes that all persons are entitled to equal employment opportunities, and we do not discriminate against our employees, applicants or job seekers because of their race, color, religion, sex, sexual orientation, gender identity or expression, national origin, creed, age, disability, pregnancy-related condition, military or veteran status, marital or familial status, domestic violence victim status, citizenship status, genetic information, individual's relationship or association with a member of a protected category or any other protected group status as defined by law. Additionally, we are committed to working with and providing reasonable accommodation to individuals with disabilities. If you need a reasonable accommodation for any part of the employment process, please send an e-mail to [HR-Benefits@RoswellPark.org](mailto:HR-Benefits@RoswellPark.org) and let us know the nature of your request and your contact information.*

*Roswell Park is committed to providing an environment where patients, families, employees, and community are treated with courtesy and respect. We support an inclusive environment that nurtures the talents, skills, and abilities of each individual to embody and reflect Roswell Park's core values: Innovation, Integrity, Teamwork, Commitment, Compassion, and Respect.*

*Pursuant to Executive Order 161, no State entity, as defined by the Executive Order, is permitted to ask, or mandate, in any form, that an applicant for employment provide his or her current compensation, or any prior compensation history, until such time as the applicant is extended a conditional offer of employment with compensation. If such information has been requested from you before such time, please contact the Governor's Office of Employee Relations at (518) 474-6988 or via email at [info@goer.ny.gov](mailto:info@goer.ny.gov).*
