## OUR RESPONSE TO COVID

Roswell Park is a safe place to receive your cancer care.

From the beginning of the pandemic, we took strict measures to protect the health and safety of everyone at Roswell Park, especially our patients. We appreciate your cooperation with these important safety guidelines while at Roswell Park.

Some of the ways we have worked to keep everyone safe include:

- Visits through the computer for certain appointments that do not require you to come in for treatment. Your doctor will let you know if he/she wants your appointment done through your computer.
- Motion-activated door openers, so you don't have to touch the doors with your hands.
- Entry screening and masking requirements throughout our campus.
- Proactive COVID-19 testing requirements for both our patients and staff based on state and federal guidelines.

We continue to work closely with the CDC, the Erie County Department of Health and the New York State Department of Health as the situation evolves with best practices for infection control and guidance from public health officials.

Dear Roswell Park Patients and Families,

Welcome to Roswell Park Comprehensive Cancer Center. You have selected a National Cancer Institute-designated comprehensive cancer center for your care. We are among a select group of such centers in the country and the *only* one in Upstate New York.

You are in exceptional hands. You have my guarantee that your experience at Roswell Park will be delivered by a team of experts that focuses on you. The relentless pursuit of our vision is evident in the quality of the care we provide and the results we achieve.

We understand that a diagnosis of cancer, or even the suspicion, can be emotionally distressing, for you and everyone who loves you. Our promise is that our world-class team will be at your side every step of the way. We promise that you and your family will:

- Have full access to information, services, resources, clinical trials and a multidisciplinary team of specialists and support staff.
- Be encouraged as an active, informed participant in all aspects of your cancer care.
- Receive appropriate care that addresses your individual physical, mental, spiritual, practical and other needs.
- Receive care that is respectful, safe and compassionate.

Not many healthcare facilities can make statements like these, but Roswell Park is a special place, staffed by special people. It's a place where the extraordinary is ordinary, and achieving excellence is our standard. We adhere to evidence-based medicine; we continually review, measure and share our results; and we go above and beyond to meet the individual needs of our patients and their families. This is The Roswell Way.

During your stay, we expect you to have many questions. We hope this handbook provides direction and assistance. Please take a few minutes to look it over and if you still have questions, do not hesitate to ask them. We are here for you, hoping to make your stay as comfortable as possible.

With Warmest Regards,

Candace S. Johnson, Ph.D.  
President & CEO

# Preparing FOR YOUR VISIT

We want you to become an active member of your healthcare team. The best way to begin is to prepare for your appointments and be ready to ask questions. Our physicians and nurses expect you to have questions. By talking to your healthcare team, you will learn a lot about your diagnosis and treatments, which can greatly improve the quality, safety and effectiveness of your care.

We will need some things from you to help make the most of your time and appointments at Roswell Park. Here is a checklist of items and information to do and bring with you on your first visit:

- **Sign up for the MyRoswell Patient Portal**

Go to [my.RoswellPark.org](https://my.RoswellPark.org) to register and log your information. Be sure to list any medications you take and physicians you see. If you need assistance, please call **1-800-767-9355**.

- **Your Health Insurance ID Card and Referral**

Please bring your health insurance ID card. If your insurer requires a referral, make sure you have obtained a copy of that referral and bring it with you. Be prepared to pay your health insurance copay on the day of your visit. If you don't have health insurance or if you have any questions about your insurance, call our Financial Counselor at **716-845-4782**.

- **Your Prescription Insurance Card(s)**

Please bring all of your prescription insurance and discount cards. These can include EPIC, Medicare-D, PACE, and any other discount cards you may have.

- **Lab, Pathology, and Radiology Reports**

Please bring copies (or have forwarded to us) any lab reports, radiology reports, films, slides, or CDs you may have received from other physicians or facilities.

- **List of Your Allergies**

It is important for your healthcare team to know if you have any allergies, especially allergies to medications, latex, iodine, or seafood. Make a list of your allergies and bring it with you to your appointments.

- **List of Your Medications**

We will want to know about **ALL** the medications you are currently taking, including vitamins and minerals, herbal or natural substances, and other over-the-counter medications, such as pain relievers or allergy pills. Bring all your medications or make a list to bring to every visit. Update this list if any of your medications change.

What can friends and family do to help? Buy gift certificates to our cafeteria or for takeout meals; run errands; clean the house; walk the dog; pick up the kids; water the garden; offer to drive to appointments.

#### • **List of Your Physicians**

We will need a list of all of your physicians, including your primary care physician, internist, oncologist and any other specialists. Please indicate for each doctor whether we should contact him or her regarding your treatment at Roswell Park.

#### • **Healthcare Proxy Form or Advance Directive**

- You may want to appoint a trusted relative or friend to make healthcare decisions for you if you lose the ability to make those decisions yourself. To select that person, you will need to complete a Healthcare Proxy form or you may specify your preferences for your care in an Advance Directive or Living Will. If you have any of these documents, please bring a copy. If you would like assistance with these, call our Social Work Department at **716-845-8022**.

#### • **List of Questions for Your Doctor**

You will want to learn everything you can about your cancer so you can make informed decisions about your care and treatment. We suggest you write down the questions you'd like to ask your doctor, such as:

- What kind of cancer do I have and where is it located?
- What treatments are available for me?
- What are the risks and side effects?
- Will I need to be admitted into the hospital?
- How will my treatment affect my job and daily activities?

#### • **Language and Hearing Impaired Assistance**

We offer specially trained medical interpreters who can provide language and American Sign Language translation for our patients and families. To schedule an interpreter for your appointment, talk to the new patient scheduling staff or call our Social Work Department at **716-845-8022**.

#### • **A Loved One**

We suggest you bring a family member or friend with you for your appointments. This person should take notes or simply provide support during your appointments.
