BUFFALO, NY

Roswell Park: It Starts with ONE

FOUNDATION FOR THE FUTURE

Building on a 125-year history of the country's first cancer center, Roswell Park is positioned as a destination center for the future of cancer innovations. We're looking for talented people who want to join our mission to eliminate cancer's grip on humanity.

Dr. Roswell Park

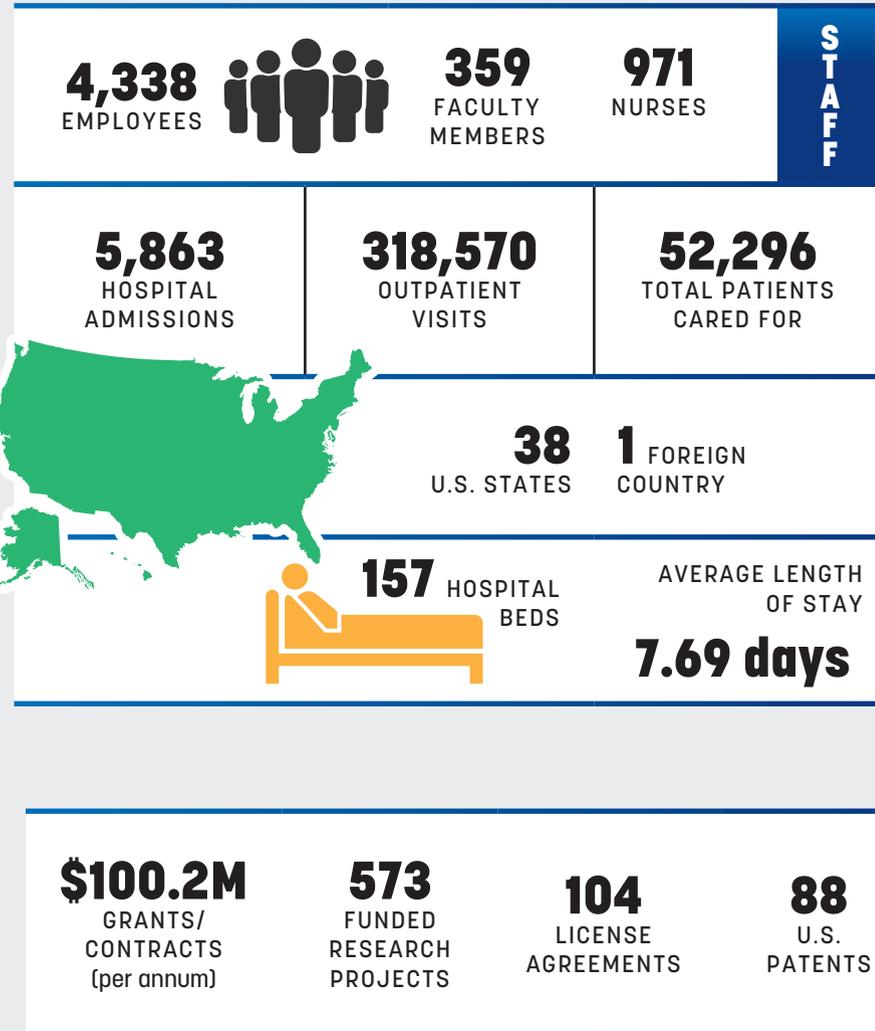

Founded in 1898, Roswell Park Comprehensive Cancer Center was the first institution in the world to focus exclusively on cancer research. Eminent surgeon, Dr. Roswell Park, sought to create a powerful force against cancer by bringing together the knowledge and skills of pathologists, chemists, biologists, surgeons and other experts — all in one center.

That vision has fueled more than a century's worth of medical discoveries and breakthroughs. Among the first to be designated a comprehensive cancer center by the National Cancer Institute, we pioneered the standard for today's multidisciplinary approach to cancer care, scientific research and the development of new therapies and technologies.

Today, we set ourselves apart as a leader in transplant and cellular therapies, personalized medicine, cancer vaccines, immunotherapy and robotic surgery.

ROSWELL PARK VITAL STATISTICS

FISCAL YEAR 2025

KEY DISTINCTIONS

In 2024, we earned our HIGHEST RATING EVER from the NCI — EXCEPTIONAL.

A member of the NATIONAL COMPREHENSIVE CANCER NETWORK (NCCN), a prestigious alliance of leading cancer centers that seeks continuous quality improvement and creates evidence-based practice guidelines.

A LEADER IN CANCER RESEARCH where the latest therapies are available to patients through our robust clinical trials program.

Imagine ...A PLACE DESIGNED TO HELP NEW IDEAS BECOME A REALITY.

Cancer is our only focus, and we concentrate on the rapid conversion of laboratory discoveries into clinical applications. We provide the infrastructure, the support, and the vibrant intellectual atmosphere to help transform ideas into reality at every level of the organization.

A LEADER in QUALITY Cancer Care

Roswell Park practices a patient-centered, multidisciplinary approach where a team of cancer experts — including surgical, medical and radiation oncologists alongside oncology nurses — participates in every patient’s care, all under one roof.

COMPREHENSIVE, INTEGRATED CARE

At Roswell Park, we treat the whole patient, not just their cancer. An array of allied clinical and supportive services are integrated into every patient’s personalized care plan. These clinical services may include nutrition, rehabilitation medicine, lymphedema care, pain and palliative care, dentistry and maxillofacial prosthetics, plastic and reconstructive surgery, psychosocial oncology, and genetic testing and counseling.

Our vast supportive services represent our holistic approach to optimal quality of life and outcomes. Programs include survivorship care, yoga, massage, meditation, mindfulness, healing touch, acupuncture, Reiki, spiritual care, art and pet therapy, patient retreats, support groups for patients and caregivers, and a resource center for education materials, hats, wigs and more.

SURVIVORSHIP CENTER

This center, for patients who have completed active treatment, provides comprehensive services to address the unique medical and supportive needs of cancer survivors as they face forward and aim for a higher level of lifelong wellness.

PATIENTS ARE TREATED IN DISEASE-SITE SPECIFIC, CLINICAL CARE CENTERS:

Breast Oncology Center

Dermatology Center

Gastrointestinal Center

Gynecology Center

Head & Neck Center

Hematology Center

Neuro-Oncology Center

Pediatric Cancer and Blood Disorders Center

Sarcoma/Melanoma Center

Thoracic Center

Transplant & Cellular Therapy Center

Urology Center

QUALITY CANCER CARE

At Roswell Park, we set the bar higher for quality, safety and effectiveness of care, comparing ourselves to top cancer centers across the nation.

We continually track and publish our latest outcomes data on numerous safety and quality indicators — survival, length of stay, readmission and infection rates, and high volumes for specialized treatments like robotic and video-assisted surgery, Gamma Knife radiosurgery, and transplant and cellular therapies — benchmarking our data against national measures.

We seek and maintain professional memberships, accreditations and certifications that demand ongoing quality review and a demonstrated commitment to excellence.

THESE INCLUDE:

- > Accreditation Council for Continuing Medical Education
- > Accreditation Council for Graduate Medical Education – for Medical and Surgical Oncology Training Programs
- > American College of Radiology Breast Imaging Center of Excellence
- > American College of Radiology Accredited Facility for Radiation Oncology
- > American College of Surgeons Commission on Cancer
- > Association for the Accreditation of Human Research Protection Programs
- > Association for Assessment and Accreditation of Laboratory Animal Care International (AAALAC International)
- > American Association of Blood Banks (AABB)
- > American Medical Association “Joy in Medicine” recognized organization
- > Blue Distinction® Center for Cancer Care

CONTACT INFORMATION

A Research POWERHOUSE

WITH MORE THAN A CENTURY OF **GROUNDBREAKING RESEARCH**, Roswell Park commits intellectual capital and necessary resources to convert scientific discoveries into real-world products and applications, bringing novel therapies to more patients sooner.

Today, Roswell Park drives innovative cancer research in genetics, cell stress and immunotherapy, leading to new personalized treatments.

RESEARCH AT OUR CENTER HAS LED TO:

14 BIOTECH SPINOFF COMPANIES
and affiliates to share our discoveries with the world

STRATEGIC PARTNERSHIPS
with investigators and centers around the world

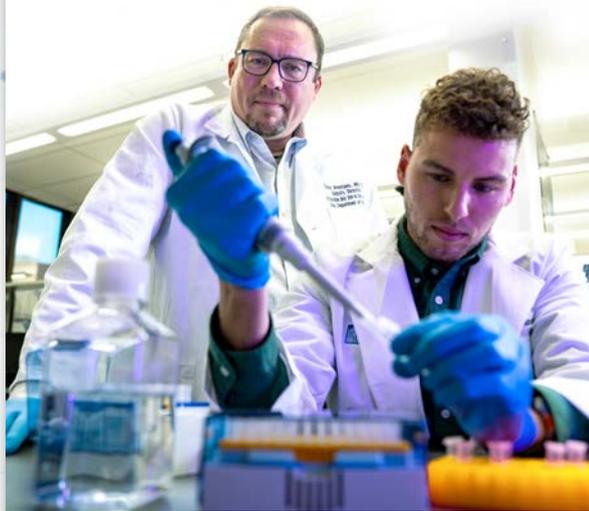

A CLINICAL RESEARCH CENTER
specifically for our investigator-initiated phase I clinical trials program

FIRST-EVER U.S. CLINICAL TRIALS
of CIMAvax, a lung cancer immunotherapy developed in Cuba

Harnessing the Immune System

Roswell Park was one of the first in the nation to combine research laboratories, state-of-the-art cell manufacturing and patient care into one immunotherapy program designed to bring the latest immunotherapies from the lab to the patient quickly.

HIGHLIGHTS OF OUR WORK INCLUDE THESE APPROACHES:

- Adoptive cell therapy
- Cancer stem cells
- Monoclonal antibodies
- Cancer vaccines
- Genetic signatures
- Immunomodulation
- Microenvironment
- Oncolytic virotherapy
- T-cell receptor (TCR) discovery

Shared Resources

Roswell Park Comprehensive Cancer Center currently supports **20 scientific shared resources** that provide our investigators with access to a broad range of sophisticated scientific instrumentation, cutting-edge technical and analytical applications, comprehensive sample biorepositories and more.

- Advanced Tissue Imaging
- Biorepository & Laboratory Services
- Comparative Oncology
- Bioanalytics, Metabolomics & Pharmacokinetics
- Bioinformatics
- Biomedical Research Informatics
- Biostatistics and Statistical Genomics
- Flow & Immune Analysis
- Gene Modulation Services
- Gene Targeting and Transgenic
- Genomics
- GMP Engineering & Cell Manufacturing Facility
- Investigational Drug Service
- Nicotine & Tobacco Product Assessment
- On-site Supply Center
- Translational Imaging

GMP Engineering & Cell Manufacturing Facility.

With 20 cell production clean rooms, Roswell Park is home to the largest academic gene-manufacturing facility in the country. Our in-house cell production eliminates the need to rely on external manufacturing partners and helps us to open more clinical trials faster. Patients who need these treatments don't have time to wait.

Expanding OUR REACH

“ THIS IS A TIME OF TREMENDOUS HOPE AND PROMISE. Cellular therapy is in its infancy, but it’s already dramatically reshaping what we can achieve through cancer therapy. I’m incredibly excited about the work this Roswell Park team is going to do in the next few years — the time we are going to be able to give back to patients with even advanced cancers, the cures that are within our reach today.”

— Renier Brentjens, MD, PhD

Deputy Director, Professor of Oncology
Chair, Department of Medicine, Department of Immunology

Educating the NEXT Generation

Roswell Park's education mission is multifaceted, aimed at reducing the global cancer burden in these specific ways:

Training the next generation of cancer experts

With world-renowned faculty and alliances with local and regional high schools, colleges and universities, Roswell Park provides specialized training, education and certification programs in several oncology and related fields:

- > Clinical training of residents and fellows
- > Predoctoral, master's and postdoctoral training in basic and translational cancer biology
- > Advanced training in oncology nursing
- > Continuing medical education for physicians and dentists
- > Cancer prevention for the general public
- > Allied health baccalaureate and professional training
- > Public and professional education about cancer and HIV/AIDS
- > Ethics in basic and clinical research
- > Summer research experiences for high school, college and medical students

Investing in population health and cancer prevention

Roswell Park devotes significant resources to research in epidemiologic and population science with the goal of decreasing cancer morbidity and mortality by:

- > Identifying factors that affect cancer risk and prognosis, such as health disparities, access to screening and care, and biologic, genetic and lifestyle factors.
- > Developing interventions to prevent cancer.

Caring for our neighbors

Roswell Park's community outreach and education efforts focus on these vital cancer prevention and early detection measures:

- > Cancer screening center
- > Smoking cessation hotline
- > Genetic screening
- > Cancer registries
- > High-risk early detection and surveillance programs
- > Reaching medically underserved populations
- > Addressing cancer health disparities
- > World Trade Center Health Program for 9/11 first responders
- > First responders cancer screening program
- > Indigenous and rural patient navigation program
- > Mobile lung cancer screening – EDDY (Early Detection Driven to You)

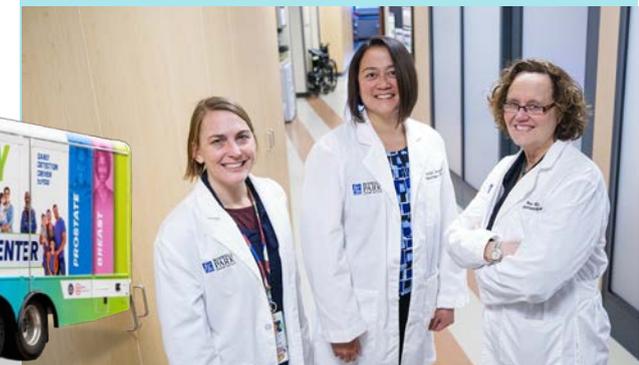

CANCER Screening CENTER

This distinctive center – open to the public – brings our expertise in population health and cancer detection to our community, before they need cancer care.

OUR CENTER OFFERS:

- > Cancer screening consultations to provide clinical examination of mouth, throat, thyroid, breasts, lymph nodes, abdomen and rectum and determine an individual's personal cancer risk and which screening tests are needed
- > Appointments and referrals for all necessary screening tests
- > Health insurance assistance for screening exams and tests with no out-of-pocket costs
- > Connection to other Roswell Park experts who provide surveillance and preventive options, genetic testing or cancer care if needed

Our REGION, Our TOWN

A Place Where Big Ideas Come to Life

Roswell Park is set in the heart of the **120-acre Buffalo Niagara Medical Campus (BNMC)**, home to hospitals and other healthcare centers, institutions dedicated to education and research, biotech companies, and the organizations that help support this powerhouse.

HERE ARE JUST A FEW OF OUR FELLOW BNMC MEMBER INSTITUTIONS:

The New York State Center of Excellence in Bioinformatics part of the State University of New York at Buffalo

Hauptman Woodward Medical Research Institute conducting basic research focused on a broad range of diseases

KALEIDA HEALTH, including: Buffalo General Medical Center Gates Vascular Institute Golisano Children's Hospital of Buffalo

A 2025 Doximity Physician Compensation Report **RANKS Buffalo #7 in the nation** for physician compensation when adjusted for cost of living.

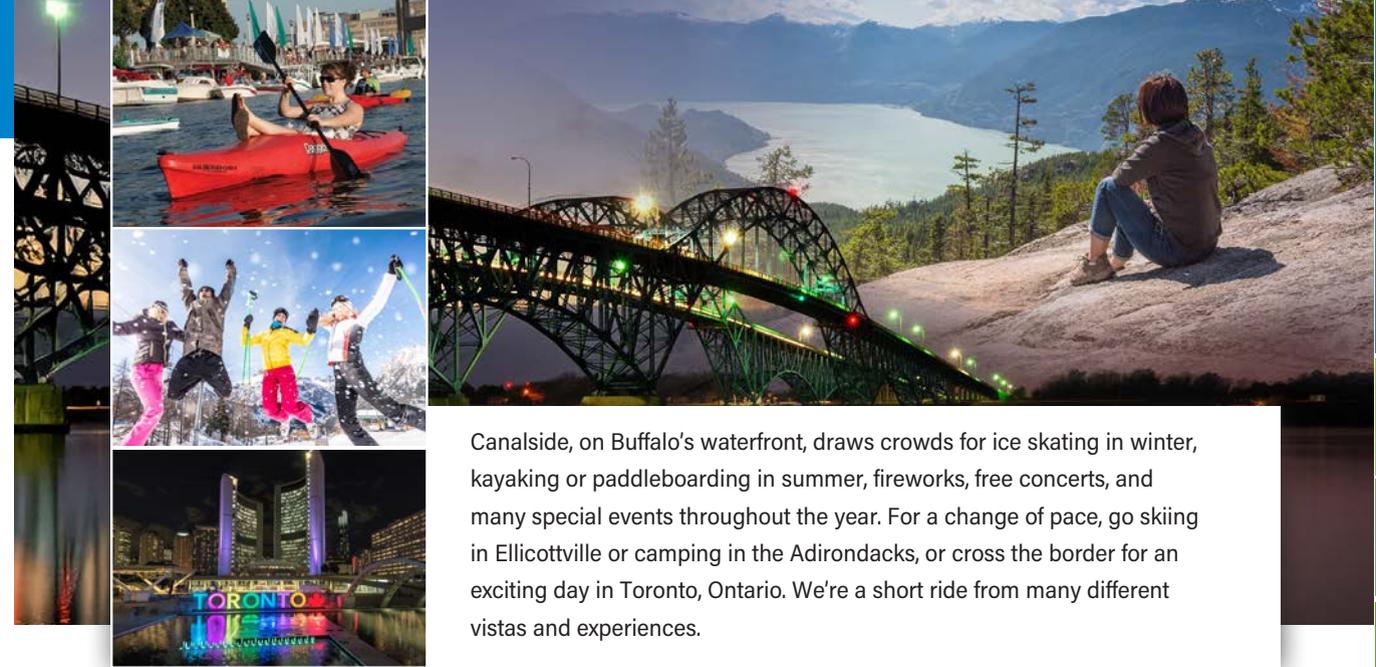

An affordable region with all the perks — and an easy commute.

The Buffalo Niagara region combines the attractions of a larger cosmopolitan city with the feeling of a small hometown.

BONUS: Affordable homes and an easy commute to the Buffalo Niagara Medical Campus.

Canalside, on Buffalo's waterfront, draws crowds for ice skating in winter, kayaking or paddleboarding in summer, fireworks, free concerts, and many special events throughout the year. For a change of pace, go skiing in Ellicottville or camping in the Adirondacks, or cross the border for an exciting day in Toronto, Ontario. We're a short ride from many different vistas and experiences.

A region rich in the food, music, and culture of many nations.

Buffalo serves up a delicious sampling of world cultures. (Believe it or not, we're known for more than just Buffalo wings!) Festivals throughout the year celebrate the traditions of people from all over the globe — Burmese, Greek, Italian, Egyptian, Ukrainian, Swedish, and many others.

And the food! If you're cooking and need nopales, long beans, labneh or za'atar, you'll find authentic ingredients in our region's many specialty grocery stores. If you're dining out, try Ethiopian cuisine — or Bosnian, or Lao, or German. There's never a dull moment for your taste buds.

Western New York offers a rich variety of performances, including Broadway hits at the historic Shea's Performing Arts Center and diverse concerts ranging from classical to rock at Kleinhans Music Hall, home of the Buffalo Philharmonic Orchestra.

We're a high-energy sports town **ALL YEAR.**

NFL FOOTBALL **BUFFALO BILLS**

NHL HOCKEY **BUFFALO SABRES**

AAA BASEBALL **BUFFALO BISON**S

NLL LACROSSE **BUFFALO BANDITS**
