

YEARS OF ADVANCING CANCER CARE

ROSWELL PARK®
COMPREHENSIVE CANCER CENTER

THE NATION'S FIRST CANCER CENTER

For over 125 years, we have advanced Dr. Roswell Park's vision to understand, treat and ultimately **end cancer**.

Founded in 1898 as the first institution devoted exclusively to cancer, it remains at the forefront of breakthroughs in immunotherapy, personalized medicine, cellular therapies and advanced surgery.

FISCAL YEAR 2026

VITAL STATISTICS

Employees	Faculty	Nurses	Hospital beds
4,436	373	1,008	157

Outpatient Visits	Hospital Admissions	Avg. length of stay
332,056	5,475	7.67 days

Total Patients Cared for **53,877**

Patients from **43** U.S. States and **4** Countries

HISTORICAL FIRSTS

1898 — **ROSWELL PARK OPENS**

1904 — Established the **WORLD'S FIRST** chemotherapy research program

1938 — Roswell Park patient tobacco use data led to the 1950 study **CONNECTING SMOKING AND LUNG CANCER.**

1975 — Pioneered the **PSA TEST** for prostate cancer screening

1978 — **DEVELOPED PDT** an FDA-approved treatment for cancer used worldwide.

2003 — Made significant contributions to the landmark **HUMAN GENOME PROJECT**

2017 — **WORLD'S FIRST** clinical trial using **TWO-GENE COMBINATION** for T-cell engineering

2017 — **FIRST COMPREHENSIVE IMMUNOTHERAPY** profile for treatment options

2024 — Built New York State's **FIRST CELL & GENE THERAPY HUB**

KEY DISTINCTIONS

NCI Designated Comprehensive Cancer Center

A comprehensive cancer center **designated by the National Cancer Institute (NCI),** earned by less than 4% of cancer centers in the nation.

NCCN National Comprehensive Cancer Network® Member Institution

A founding **member of the National Comprehensive Cancer Network (NCCN),** a prestigious alliance of leading cancer centers that create the evidence-based cancer care guidelines used worldwide.

ADVANCING CANCER CARE

Roswell Park practices a patient-centered, multidisciplinary approach where a team of cancer experts — including surgical, medical and radiation oncologists — participates in every patient's care, all under one roof.

COMPREHENSIVE, INTEGRATED CARE

At Roswell Park, we treat the whole patient, not just their cancer, integrating key services into every patient's personalized care plan, such as:

- NUTRITION SERVICES
- REHABILITATION THERAPY
- LYMPHEDEMA CARE
- PAIN AND PALLIATIVE CARE
- PSYCHOSOCIAL SERVICES
- FERTILITY PRESERVATION
- DENTISTRY AND MAXILLOFACIAL PROSTHETICS
- PLASTIC AND RECONSTRUCTIVE SURGERY
- GENETIC TESTING AND COUNSELING

SURROUNDED WITH SUPPORT

Our vast supportive services represent our holistic approach to optimal quality of life and outcomes.

OUR PROGRAMS INCLUDE:

WELLNESS ACTIVITIES

Yoga, massage, acupuncture, meditation, reiki and more

SURVIVORSHIP CENTER

For patients who have completed active treatment

RESOURCE CENTER

For education materials, hats, wigs, wellness activities

ELEVATE SALON

Haircuts, head shaves, wig styling and more for patients experiencing hair loss.

SUPPORT PROGRAMS

Support groups, retreats and patient workshops

SPIRITUAL CARE

ART, MUSIC AND PET THERAPY

NYS's FIRST Cell and Gene Therapy Hub

ROSWELL PARK GMP ENGINEERING & CELL Manufacturing Facility

PIONEERING CELLULAR THERAPIES

Recent breakthroughs in the field of immunotherapy find Roswell Park uniquely poised to expand and accelerate our ability to bring game-changing cellular therapies to the patients who need them.

By producing cells in-house, we can launch more trials faster and get critical treatments to patients sooner.

We offer patients the latest approved options in cell therapies, such as chimeric antigen receptor (CAR) T-cell therapy and tumor-infiltrating lymphocyte (TIL) therapy and next generation cell therapies in clinical trials.

Cell therapy requires the ability to engineer and manufacture therapeutic cells in a sophisticated, dedicated facility built for that purpose.

Few centers across the country were involved in cell-based cancer treatments at any level when we opened our Therapeutic Cell Production Facility with one GMP cell production "clean room" in 2010. TODAY, OUR FACILITY INCLUDES 20 CELL PRODUCTION CLEAN ROOMS!

RoswellPark.org/GMP

ACCESS TO CLINICAL TRIALS

When you or a loved one has cancer, you need the latest, most promising treatment today.

Enrolling in a clinical trial offers earliest access to the newest treatment approaches, drugs and other options, months or even years before they become widely available.

As many as **50%** of Roswell Park patients are eligible for a clinical Trial

We are currently enrolling patients in over **300** CLINICAL TRIALS

RESEARCH POWERHOUSE

For more than a century, Roswell Park has turned scientific breakthroughs into life-changing therapies. Today, we drive innovative cancer research in genetics, cell stress and immunotherapy, leading to new personalized treatments.

KEY Scientific BREAKTHROUGHS

RPMI1640	A cell culture medium used around the world
PSA Test	A screening test for prostate cancer
PDT PHOTODYNAMIC THERAPY	Laser light with a light-sensitive drug to kill cancer cells
OmniSeq®	Genomic and immune profiling assays
SurVaxM	A treatment vaccine for glioblastoma
Polivy™	A drug for non-Hodgkin Lymphoma

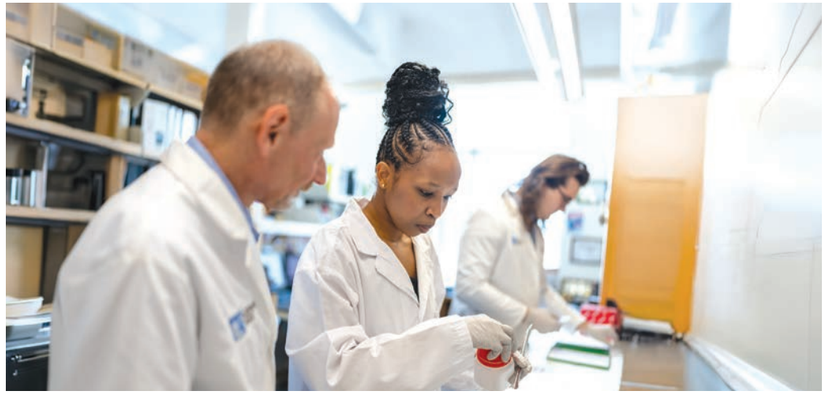

Harnessing the Immune System

Roswell Park was among the first to integrate research, cell manufacturing and patient care bringing innovative immunotherapies to patients faster.

Highlights of our work include these approaches:

- ADOPTIVE CELL THERAPY
- CANCER STEM CELLS
- MONOCLONAL ANTIBODIES
- CANCER VACCINES
- GENETIC SIGNATURES
- IMMUNOMODULATION
- MICROENVIRONMENT
- ONCOLYTIC VIROTHERAPY
- T-CELL RECEPTOR (TCR) DISCOVERY

Faculty from across our clinical and scientific departments collaborate in these multidisciplinary research programs:

- CANCER STRESS BIOLOGY
- DEVELOPMENTAL THERAPEUTICS
- POPULATION SCIENCES
- TUMOR IMMUNOLOGY AND IMMUNOTHERAPY

These FOUR research programs form the foundation of Roswell Park's Cancer Center Support Grant, awarded by the National Cancer Institute and funded since 1974.

Shared Resources

Our faculty have access to over 20 specialized research support laboratories with cutting-edge technology, including:

- Genomics
- Flow & Immune Analysis
- Biostatistics & Bioinformatics
- BioRepository & Laboratory Services
- Bioanalytics, Metabolomics & Proteomics
- GMP Engineering & Cell Manufacturing Facility

Research at our center has led to

14 Biotech Spinoff Companies

STRATEGIC PARTNERSHIPS WORLDWIDE

A CLINICAL RESEARCH CENTER specifically for our investigator-initiated phase I clinical trials

$127M Grants/Contracts (per annum)

540 Funded Research Projects (FY25)

152 License Agreements

103 U.S. Patents

TRAINING TOMORROW'S CANCER EXPERTS

With world-renowned faculty and alliances with local and regional high schools, colleges and universities, Roswell Park provides specialized training, education and certification programs in several oncology and related fields:

- Clinical training of residents and fellows
- Predoctoral, master's and postdoctoral training in basic and translational cancer biology
- Advanced training in oncology nursing
- Continuing medical education for physicians and dentists
- Cancer prevention for the general public
- Allied health baccalaureate and professional training
- Public and professional education about cancer
- Ethics in basic and clinical research
- Summer research experiences for high school, college and medical students

150+
High School, College and Post-Baccalaureate Interns

120+
Nursing and Physician Assistant Students

100+
Graduate Students

225+
Medical Students

10+
Exchange Visitors and International Research Scholars

30+
Postdoctoral Research Fellows

350+
Clinical Residents/ Oncology Fellows

IMPROVING ACCESS TO CANCER CARE

Roswell Park conducts epidemiologic and population science research to identify cancer risk factors, improve prognosis and develop effective prevention strategies.

Ensuring Access in Communities with the Greatest Needs

Roswell Park's Broadview Community Outreach & Engagement Center was created to advance health equity and improve outcomes across Western New York through cancer education, screening access, financial wellness programs, and community space.

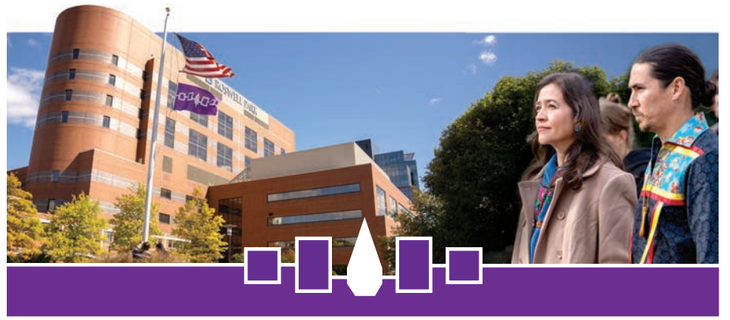

Caring for our neighbors

We connect underserved communities to vital cancer services through outreach, multilingual engagement and community partnerships. **These efforts include:**

- Addressing cancer health disparities
- Cancer screening center
- Smoking cessation hotline
- Genetic screening
- Cancer registries
- High-risk early detection and surveillance programs
- World Trade Center Health Program for 9/11 first responders
- First responders cancer screening program
- Indigenous and rural patient navigation program

INVESTING IN INDIGENOUS HEALTH

Supporting Indigenous Cancer Equity and Care

Our Department of Indigenous Cancer Health, the first at an NCI-designated cancer center, is dedicated to Indigenous cancer research, services and health equity.

EDDY GOES ON THE ROAD

(EARLY DETECTION DRIVEN to YOU)

MOBILE SCREENING CENTERS

Early detection through lung, breast and prostate cancer screening improves treatment outcomes.

Funded by New York State, Roswell Park's mobile screening center brings advanced cancer screening directly to underserved communities and first responders across the state.

IN THE PAST **5 YEARS**, we have reached over

75,000

COMMUNITY MEMBERS through targeted, evidence-based outreach to high-risk populations.

Between **2021 - 2025**, we have **SCREENED** OVER

63,000

PEOPLE FOR CANCER.

51,869 BREAST screenings

5,695 LUNG screenings

3,231 COLORECTAL screenings

2,402 PROSTATE screenings

FUNDING THE FUTURE OF CANCER CARE

Since its inception in **1991 NEARLY**

$700M

HAVE BEEN RAISED FOR
Cancer Research, Quality-of-Life and Patient Care Programs

The Alliance Foundation is a 501(c)(3) not-for-profit organization that manages all donations made to Roswell Park through individuals, corporate partnerships, estates, endowments, foundations and fundraising events.

ROSWELL PARK ALLIANCE FOUNDATION
FUNDRAISING EVENTS AND PROGRAMS

The Alliance Foundation has received a four-out-of-four-stars rating for eight consecutive years from Charity Navigator. This rating demonstrates the Alliance Foundation's commitment to accountability and transparency.

EXPANDING OUR REACH

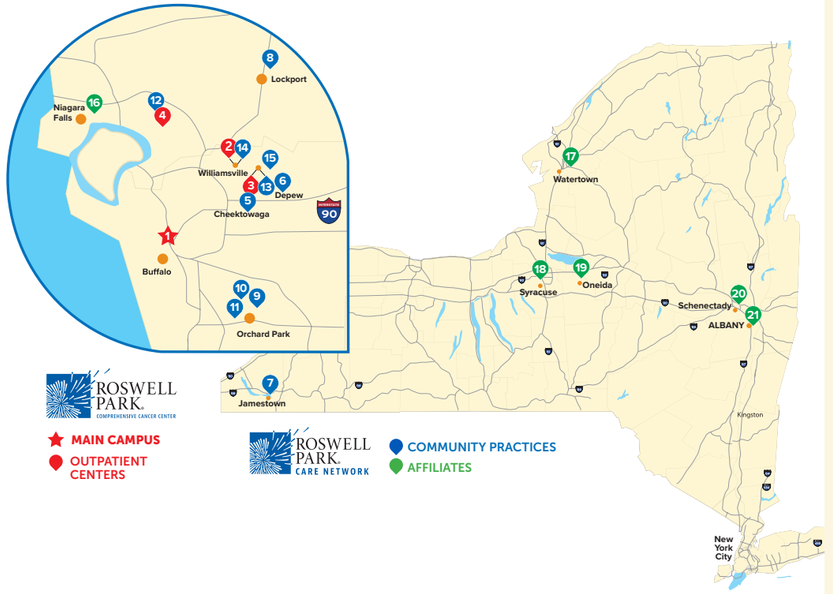

The Roswell Park Care Network is guided by experts at Roswell Park Comprehensive Cancer Center and was created to expand access to comprehensive cancer care and specialized services.

A vital part of Roswell Park's mission, the Roswell Park Care Network provides access to high-quality cancer, non-cancer and supportive services at locations throughout Western New York and New York State, bringing expert care closer to home.

INTERNATIONAL COLLABORATIONS

Our collaborations enhance cancer research and training programs around the world.

- Burjeel Medical City, **Abu Dhabi**
- Concordia Healthcare, Inc., **Ontario, Canada**
- Concordia Laboratories, Inc. **Luxembourg, Luxembourg**
- Dame Medical, **Paris, France**
- Exscientia, **Oxford, England**
- F. Hoffman-La Roche Ltd., **Basel, Switzerland**
- Helsinn Healthcare SA, **Lugano, Switzerland**
- Instituto de Biologia y Medicina Experimental (IBYME), Instituto de Investigacion Sanitaria-Fundacion Jimenez Diaz, **Aires, Argentina** and **Madrid, Spain**
- King Fahad Specialist Hospital **Dammam, Saudi Arabia**
- Mazumdar Shaw Medical Foundation **Bengalur, India**
- Niigata University, **Niigata Shi, Japan**
- Pazmany Peter Catholic University, **Budapest, Hungary**
- PIQUR Therapeuticsa, **Basel, Switzerland**
- Queens University, **Kingston, Ontario, Canada**
- Semmelweis University, **Budapest, Hungary**
- University of Debrecen Medical School **Debrecen, Hungary**
- University of Pecs Medical School, **Pecs, Hungary**
- University of Szeged Faculty of Medicine **Szeged, Hungary**

At Roswell Park, we set the bar higher for quality, safety, and effectiveness of our care.

We seek and maintain professional memberships, accreditations, and certifications that demand ongoing quality review and a demonstrated commitment to excellence.
