## 2016 Eastern Great Lakes Chapter Annual Meeting

The Eastern Great Lakes Chapter of the Society of Nuclear Medicine and Molecular Imaging, in coordination with the American Board of Nuclear Medicine and the American Medical Association, has created a multi-faceted educational weekend program that combines medical imaging and therapy and also highlights evolving strategies in Board Certification and Advocacy.

Topics include amyloid imaging, radionuclide therapy, breast lymphoscintigraphy, radiation dose reduction, cardiovascular imaging, EKG interpretation, and a presentation by our national SNMMI President-Elect.

We are once again pleased to bring you a talk detailing the current issues affecting all of us in healthcare-- brought to us by the **President Elect** of our **American Medical Association**. Our other keynote speaker is the **Executive Director** of the **American Board of Nuclear Medicine** who brings an announcement regarding the revamping of the Maintenance of Certification program and discussion of joint efforts with the American Board of Radiology.

We look forward to the program we have developed with these diverse and distinguished Speakers. The Chapter will also hold its annual business meeting including an election for the position of Chapter Secretary/Treasurer.
