

CRV Isolation, Part 1

1/7/2011

	City of Hope Cancer Center	Dana Farber Cancer Institute/BWH	Duke University Medical Center	Fox Chase Cancer Center	H Lee Moffitt Cancer Center & Research Inst	James Cancer Hospital & Solove Research Institute @OHSU	Jonsson Comprehensive Cancer Center @ UCLA	Karmanos Cancer Institute	Memorial Sloan-Kettering Cancer Center	Oregon Health Sciences Univ. Cancer Inst.	Roswell Park Cancer Institute	Siteman Cancer Center @ Barnes-Jewish Hospital & WUSM	Seattle Cancer Care Alliance	USC/Norris Cancer Hospital	University of Texas/MD Anderson Cancer Center	MDACCO/ORH
Do you isolate for adenovirus?		yes						yes			No for GI (unless patient incontinent), Yes for Conjunctivits, Yes for Pneumonia		yes	yes	yes	
Do you isolate for HPMV (human pneumometavirus)?		yes						decision to isolate pending evaluation			yes		yes	yes	no	
Do you isolate for influenza?		yes		yes				yes			yes		yes	yes	yes	
Do you isolate for parainfluenza?		yes						yes			yes		yes		yes	
Do you isolate for RSV?		yes						yes			yes		yes	yes	yes	
Do you isolate for rhinovirus?		no						yes			yes		yes, first 5 days of illness	yes	no	
What categories of isolation are used for adenovirus?		contact/droplet						contact/droplet			Conjunctivitis- Contact, Pneum- Both		contact/droplet	contact/droplet	contact/droplet	
What categories of isolation are used for HPMV (human pneumonetavirus)?		contact									contact		contact/droplet	contact		
What categories of isolation are used for influenza?		droplet		droplet				contact/droplet			droplet		contact/droplet	droplet	contact/droplet	
What categories of isolation are used for parainfluenza?		contact						contact/droplet			contact		contact/droplet		contact/droplet	
What categories of isolation are used for RSV?		contact						contact/droplet			contact		contact/droplet	contact	contact/droplet	
What categories of isolation are used for rhinovirus?		standard						droplet			droplet		contact/droplet	droplet
