<b>Do your organizations allow fingerstick blood sugar testing on your stem cell transplant populations?</b>	No, all transplant pts have blood drawn through the central line for blood sugar testing. Considering changing.	Yes	No transplants	Yes	Yes	Yes	"Yes, but only with MD order & only when platelet ct >50,000. Blood for glucose testing is routinely drawn through the central line."	Yes	Yes	Yes	No, draw from central line whenever possible
<b>"If yes, parameters: WBC Platelet count Other (list)"</b>		None		None	None	None	Platelet ct >50,000	None	None	None
