

Know which cancer screening tests you need, and when, and how to get them.

CANCER SCREENING

AT ROSWELL PARK
COMPREHENSIVE CANCER CENTER

RoswellPark.org/Screening

WHICH TESTS? WHEN?

It can be difficult to keep track of which tests you need and when, and whether a personal or family member's cancer diagnosis affects your risk. We'll help arrange the screenings you need for these cancers:

BREAST MAMMOGRAPHY

For all women **age 40 to 70**, frequency depends on risk factors

schedule your mammogram at a convenient Roswell Park location:
RoswellPark.org/Mammography or 1-800-ROSWELL

COLORECTAL

Colonoscopy for men and women **age 45 and older**; earlier testing may be needed for those with certain factors

PROSTATE

Early detection counseling, digital rectal exam, PSA test (if desired) for men starting **at age 45**; and starting at **age 40** for African American men or those with family history

CERVICAL

Pelvic exam, Pap test and routine HPV testing for women **age 21 to 65**

LUNG

Low-dose CT scan for men and women **age 50 to 79** with more than **20 pack-years** of smoking history and have smoked in last 15 years

schedule your lung cancer screening at a convenient Roswell Park location: RoswellPark.org/HighRiskLung or 1-800-ROSWELL

SKIN CANCER

Full-body skin check for patients with any suspicious lesions

With most screenings, the results of your tests determine how often you should have them going forward.

ELIGIBLE FOR A SCREENING, BUT NOT SURE WHERE TO START? Make an appointment for your cancer screening consultation by calling: 1-800-ROSWELL (1-800-767-9355)

Understand your personal screening needs by completing the cancer screening questionnaire at RoswellPark.org/Screening.

HOW WE CAN HELP

Not everyone will need every screening test. In order to focus on your cancer risk and testing needs, we provide:

Cancer Screening Consultation

This appointment with a medical provider will include:

- **Discussion** about your current health, and your personal and family history and guidance on how to reduce your risk for cancer.
- **Clinical examination** of your mouth and throat, thyroid, breasts, lymph nodes, abdomen and rectum.
- **Skin check** to look for growths that should be removed.
- **Review by the provider** to determine which screenings you should have.

Referrals and appointments for screening tests

We'll arrange for you to have the tests you need right here at Roswell Park, or at a provider of your choice.

Assistance with health insurance coverage

Insurance plans do cover screening exams and tests, meaning no out-of-pocket cost to you. If you lack health insurance, we'll help you access the NYS Cancer Services Program to cover appropriate screening tests, and Medicare and Medicaid should you need treatment.

Smoking cessation programs

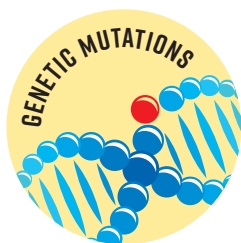

to help you kick the habit with education classes, counseling or nicotine replacement.

Connection to other Roswell Park experts

If necessary, we'll connect you with Roswell Park's clinics that provide surveillance and preventive options, referral to genetic testing, or to a treatment team.

HIGH-RISK CANCER PROGRAMS

Roswell Park also offers programs for people who have higher than normal risk for certain types of cancers due to:

The programs offer appropriate screening, surveillance and preventive options to help you manage your risk of

BREAST
LUNG
OVARIAN and
PANCREAS
CANCER.

Take our personal assessment at RoswellPark.org/Screening to better understand your risk factors for cancer

Please let us know if you need a language interpreter or assistance with transportation for your appointment. We can help.
